COMMUNICATION

The European Patent Office herewith transmits as an enclosure the European search report for the above-mentioned European patent application.

If applicable, copies of the documents cited in the European search report are attached.

- Additional set(s) of copies of the documents cited in the European search report is (are) enclosed as well.

The following specifications given by the applicant have been approved by the Search Division:

abstract title

- The abstract was modified by the Search Division and the definitive text is attached to this communication.

The following figure will be published together with the abstract: 3A

REFUND OF THE SEARCH FEE

If applicable under Article 10 Rules relating to fees, a separate communication from the Receiving Section on the refund of the search fee will be sent later.

ABSTRACT / ZUSAMMENFASSUNG / ABREGE

03017300.9

A projection display device comprises a light source (11), a display section (22,27,35) configured to receive light from the light source (11) and output image light modulated with an image signal, a projection device (37,38) configured to project the image light output from the display section (22,27,35), a duct device having an air duct (50,51,52,54,55) for conducting air from an air intake (41,42) to an air discharge section (43,44,45) and an air chamber (53) which is formed downstream of the air discharge section in the air duct (52) and configured to blow cooling air from the air discharge section toward the display section, and an air blower (48,49) configured to blow cooling air into the air intake.
